3. Entergy Operations, Inc. (EOI) letter to USNRC, Grand Gulf Unit 3 and River Bend Station Unit 3 COLA Reviews, (G3NO-2009-00002, R3NO-2009-00001), dated January 9, 2009

Dear Sir or Madam:

In Reference 1, Entergy Operations, Inc. (Entergy) submitted a combined License Application (COLA) to construct and operate a new nuclear plant at the Grand Gulf Nuclear Station (GGNS) site near Port Gibson, Mississippi. The letter accompanying the license application requested that Nuclear Regulatory Commission (NRC) invoices for COLA reviews be addressed to NuStart Energy Development, LLC (NuStart) pursuant to agreements between the applicant and NuStart.

In Reference 2, Entergy submitted a COLA to construct and operate a new nuclear plant at the River Bend Station (RBS) site near St. Francisville, Louisiana. The letter accompanying the license application identified the point of contact for correspondence and invoicing as Mr. Jerry Burford, the Entergy RBS COLA project manager.

In Reference 3, Entergy requested that the NRC suspend review of the Grand Gulf Unit 3 (GG-3) and RBS Unit 3 (RBS-3) COLAs until further notice.

NRO

Due to the change in status of the GG-3 and RBS-3 COLA projects, and in accordance with the business needs of Entergy and NuStart, Entergy requests that correspondence, including invoices for NRC fees associated with the review and maintenance of the GG-3 and RBS-3 license applications be addressed to the Entergy point-of-contact per instructions blow.

Correspondence and invoices should be addressed to:
