(4) Main transformer No.2 (oil leakage)

Photo: Tokyo Electric Power Company, March 12, 2011
(5) Main transformer No.4: V-suspended insulator (damaged)

Photo: Tokyo Electric Power Company, March 12, 2011
(6) Circuit breaker 0-24 (damaged)

Photo: Tokyo Electric Power Company, March 12, 2011
(7) Circuit breaker O-41, Iwaki Main Line 1L (damaged)

Photo: Tokyo Electric Power Company, March 11, 2011
(8) Disconnector 33, Ohkuma Line 3L (damaged)

Photo: Tokyo Electric Power Company, March 12, 2011
(9) Disconnector 93, Yonomori Line 1L (damaged)

Photo: Tokyo Electric Power Company, March 12, 2011
(10) Disconnector 94, Yonomori Line 2L (damaged)

Photo: Tokyo Electric Power Company, March 12, 2011
(11) Disconnector 101 (damaged)

Photo: Tokyo Electric Power Company, March 12, 2011
(12) Disconnector 113 (damaged)

Photo: Tokyo Electric Power Company, March 12, 2011
(13) Disconnector 210 (damaged)

Photo: Tokyo Electric Power Company, March 12, 2011
(14) Disconnector 242 (damaged)
(15) Disconnector S200 (damaged)

Photo: Tokyo Electric Power Company, March 11, 2011
(16) Potential transformer, Ohkuma Line 1L (tilted)

Photo: Tokyo Electric Power Company, March 12, 2011
(17) Current transformer, 500kV Section bus (damaged)

Photo: Tokyo Electric Power Company, March 12, 2011
（18）Lighting arrester, Iwaido Line 2L (bus side) (damaged)
