If electrical isolation within "can not have" primary Denjiren chairman Yagi

Makoto Yagi, president of the Federation of Electric Power Companies to reveal a sense of crisis "in this state will not have a nuclear power plant" and

[Shangdi] Kanetaro power company "disconnected from the power transmission and distribution sector electrostatic separation ships about", Federation of Electric Power Companies of Japan Chairman Makoto Yagi (KEPCO in a press conference on the 15th, "the President) in the context of nuclear power plant now (the I said "probably not have). I worry because they lose sales if the transmission and distribution network is disconnected, and will not put out and maintenance costs of a nuclear power plant.

Ministry of Economy, Trade and Industry 08, expert committee has put together a report that "promote the separation in around 5-7 years." Power company "legal separation" transfer assumes the method (a separate company) to a subsidiary of the power transmission and distribution sector.

On the other hand, Mr. Yagi was against the "system reform should not lead to a profit" has not been validated or send inexpensive and stable electricity "" of our customers.
