### Earthquake rubble in Iwate Prefecture, Osaka towards the departure (Osaka)

23, Iwate Prefecture rubble I was leaving for Osaka for the first time next month before, Osaka Osaka is a accept to start the burning rubble of the Great East Japan Earthquake. Was about to be discharged today 800 tons of combustible materials, such as scrap Thurs district of Miyako, Iwate Prefecture earthquake rubble. From next month, will be incinerated at a facility in Osaka, this rubble as the global processing 36,000 tons of the largest national plan will be processed by the end of next year. Meanwhile, residents such as Osaka brought an action seeking damages and an injunction against this process and Osaka Prefecture. Claim that "the environment is worse in incineration and landfill, serious impact on human life is enormous," and others, plaintiffs are seeking payment of the total amount of 26 million yen as a mental alimony. Action to seek injunction is the first process in the Kansai area.
