Intermediate street next year also looks ahead to future immigration decision to live in the now

- 38 Mr. Keiichi Sugano agriculture evacuated from Iitate Nishiaizu (38) strive to work in the fields in the city of refuge Nishiaizu Mr. Keiichi Sugano Iitate village agriculture. Day-to-day on the edge of the blessed people are engaged in agriculture favorite has been enhanced. However, I decided to think of my parents and my future refuge away, move closer to medium quality hometown next year. I have taken a new step but confused on the difference between the ideal and reality.

Before the earthquake had subsisted on rice cultivation and breeding of five head of a thriving gentian, cattle breeding in Iitate together with (61) (64), mother Mrs. Kazuko Kesao father. farmer’s father has been a large scale in one generation. After a few years I thought his son is trying to succeed as a manager.

TEPCO Fukushima Daiichi nuclear power plant accident derail your life. I moved to the city to sell the cattle Nishiaizu, while leaving the field, have a friend with low radiation dose. I was thinking trying to earn a living on the side, in the town hall visited house hunting, he learned that (62) is looking for agricultural workers Mamoru Watanabe constant Onomoto of town. Employment contract, every day except Sunday from June last year in the way Mr. Watanabe, we are hard at work harvesting cucumbers and disinfection, and cultivation management.

That there may have been doing and agriculture in the same way as before the nuclear accident, such as the illusion forget that you are evacuated. Mind is calm...
natural scent similar to hometown. Sometimes get invited to dinner to Mr. Watanabe. Thanks is not consumed. But I can not think about the future and continue to stay in Nishiaizu.

My parents live in a house of Kariage Date City. My sister is married with three prefectures, not only you can take care of the eldest son. Aizu far. During the next year I’m going to North County moved closer to the hometown and parents, around two districts in the province.

I would think there is and I want to continue farming, "How can I make a living on their own when. Harmful rumors prevail was a family do not know" and. 10 years, 20 years of life I have no idea. Still believe there is only a bright future. "I want to become lively places such as relatives gathered as before." Now it is the wish of most.
