# Immediately after the accident, 80 milli-sievert of exposure GSDF personnel

ツイート 28 Recommend おすすめ チェック

Fukushima nuclear power plant

17, the Ministry of Defense of the members of the Ground Self-Defense Force who was active immediately after the accident at TEPCO's Fukushima Daiichi Nuclear Power Station ExposureIt was announced that the dose up to 80.7 milli-sievert.

So far, the ministry of personnel is the maximum dose has been 22.7 milli-sievert, we have found it reaffirmed the radiation dose that workers engaged in another activity.

According to the ministry, 20 members of the GSDF will perform the work of the water injection into the reactor in a nuclear power plant site on the day of March 12-13. Of these, 12 people wearing the dosimeter borrowed from TEPCO, TEPCO later I returned to the activity remains not confirm the number. Since then the place where, without checking the numbers for more than two months, TEPCO were contacted late last month, as well as personnel men in their 40s had been exposed 80.7 milli-sievert in two days, eight ministry I was more than 30 milli-sievert is. Have at the time, members of the upper limit of the dose has been set to 100 milli-sievert, "There is no health problems limit is below, and should be confirmed sooner," the ministry said.
