Great East Japan Earthquake (Special News)

[10 deaths overconfidence safety EPZ], ripples spread Prefecture toll on the weak nuclear location

In the hospital is a 3 (EPZ) priority areas within 10 km radius, disaster prevention measures, ten meters from the inpatient elderly died one after the other while waiting and Self-Defense Forces to support the evacuation from Fukushima Daiichi. Doctors are busy with a patient's treatment, the tragedy that occurred in the extremely confusing. I used to be in the hospital five, "and had a" patient's evacuation plan that assumes the only nuclear accident within one facility. Reality that the weak suffer under the "safety myth" primary, the toll of the risk it has become clear again.

▽ confusion

"While there is not enough manpower also affected staff, press 1 kilometers to the school to which the Self-Defense Forces helicopter comes the bedridden patient's bed." Imamura hospital about 9 kilometers (Tomioka town, Fukushima Prefecture), evacuation of about 100 people hospitalized patients from primary began the night of March 13. 3 people 72-93 years of age died during the day and a half has passed since leaving evacuation within 10 km radius, while waiting for the rescue self-generation.

Covered with a sheet filled with ice, mortuary body is laid to rest. It was housed in the Sun as police until May to November 4. Hospital executives "had no means of transport for evacuation., I could not even if they want to do something."

It was making evacuation plans are set forth in the regional disaster prevention plan the county hospital, state that it is not accepted by the damage caused by the earthquake and some hospitals had been previously transferred. Has been changed to a different shelter transport destination.

I speak of those involved (Okuma-machi prefecture) is "primary safety and continue to be told, this was the result. Taste everyone seriously is not enough," Futaba hospital and four people died.

▽ impatience

Shizuoka Prefecture, Chubu Electric Power, which has a Hamaokagenpatsu the reactor was stopped at the request of Prime Minister Naoto Kan all. Located about 3.3 km from the nuclear power plant Omaezaki General Hospital to be hospitalized elderly people with dementia. To "There is a evacuation plan for residents, the hospital's plan is not" province and the Division of Nuclear Safety.

"Receiving the situation in Fukushima, during the evacuation of all examined, including inpatient bedridden," the hospital said, began to study the evacuation of the hospital system located in the province also EPZ.

However, the cooperation of the county and the hospital have not been able to. "Requires the involvement of the country will be wide enough Whether there is a need to extend the 20 km EPZ, I want to validate (Fukushima) as soon as possible." Since the warning area that are prohibited within 20 km from has become the primary, the person in charge of Shizuoka Prefecture, exude impatience.
