Toshimitsu Motegi parous phase is completed ahead of schedule to visit the Fukushima nuclear power plant decommissioning, mention

Parous phase Mogi received a written request from the (right), Vice Governor Uchibori

16 days, for reporters, review the process for decommissioning due to the accident Fukushima Daiichi promoted by TEPCO and the government in the prefecture Fukushima visited, Economy, Trade and Industry Minister Toshimitsu Motegi time completion that are years ahead 30-40 at the moment I have to clarify the policy aimed at accelerated.

Phase parous Mogi visited the reactor building of Unit 4 nuclear power plant the first No. 4 "is visible person is entering, Units 1-3 is different from the d

egree of difficulty of the work is not in such a situation. In each unit. "We might be able to do it ahead of schedule to subdivide the process for each Unit, he illustrates the idea to consider the preceding work in Unit 4.

Furnace abolition of Unit 1-4 primary and second No. 5,6 Fukushima Daiichi are seeking count primary safety has been confirmed by the new standards that the Nuclear Regulatory Commission "will be formulated will forward the re-activated but the basic policy, I decline to say "I think you need to take seriously the opinions of the province. come out unambiguously and also be a part of the judgment of the operator.

Vice Governor of Masao Uchibori prefectural government will demand was met in the application of the subsidy to the entire province of job creation company located tsunami and nuclear disaster stricken areas taken by the State from the new year. I said, "I think in a way that covers the entire province on prioritization, allocation was" tilt phase parous Motegi.
