Vulnerable people / wrestling 4 kg, the Futaba Public Welfare Hospital, left behind from the primary

Futaba Public Welfare Hospital patient and wait for the helicopter Ground Self-Defense Forces in the evening of 12 March 2004 = high Futaba staff (provided Futaba Public Welfare Hospital)

TEPCO's Fukushima Daiichi nuclear power plant accident, was left behind in the evacuation zone, from hospitalized patients and nursing home residents were mostly. Forced the evacuation of 136 people all hospitalized patients, (Futaba Town, Fukushima Prefecture), four seriously ill died during evacuation Futaba Public Welfare Hospital located approximately four kilometers northwest of the nuclear power plant. Threat of nuclear accident, was attacked vulnerable people first and foremost. © "refuge by hospital, unexpected" director wanted you to escape it very serious. promptly "accident. that" what has to do too much at 2:00 pm on March 12 last year,

 - 3.11 Earthquake

had been packed in a disaster response headquarters of the prefecture Fukushima phone call from a n old physician led by chance. The impetuous opponent (61) decided to evacuate everyone was hesitant Shigetomi director Shuichi. Early morning on this day, the government expanded the sphere 10 kilometers from an area 3 km evacuation zone. Prompted the evacuation was a police officer who came to the hospital, I thought (director Shigetomi) "on condition that could worsen or bedridden patient is seriously ill and moved by force." Evacuate the patient only relatively mild symptoms, from severe and staff stayed in the hospital. <Not keep adding> Self-Defense Forces helicopter for evacuation, it was decided to fly from the high ground near Futaba. It was back and forth the high and Futaba a hospital by car, must not carry no mat-long by four, had been seriously ill and time consuming. At that time, I was a loud explosion echoed. (50) saw white smoke rise to the sky in the direction of the Deputy Secretary-General southeast Kazuaki Yamagishi hospital was in the Futaba high ground. 3:00 pm 36 minutes, the reactor building of Unit 1 hydrogen explosion. Soon came like hail falling from the sky white. "Still the helicopter." Mr. Yamagishi was not scared while only hope. When I was spending reading dusk, seven helicopters machine Prefecture Disaster Countermeasures Headquarters arranged by has arrived, I was not able to put all patients. In addition to hospital officials, the high Futaba has been gathered and the nearby nursing home residents, but also residents of the neighborhood was as delayed evacuation. Shigetomi director has requested the dispatch of additional helicopters, too late that day, nine staff and 16 patients spent the night at the Futaba high tea ceremony room. This evening, one patient died. Doctors and nurses who rode in a helicopter, I continue to send oxygen to a patient in a bag-like instrument that was using the ventilator is called "Anne view bag." Looking down on the ground, can be said to have a band of light in the light of the car from the street to evacuate the beach. Shelter would have been heard and Nihonmatsu, three helicopters landed Kasumi nomechutonchi Ground Self-Defense Force in Sendai. After receiving a radiation screening, patients and staff spent the night in the room of a concrete floor. During this period, two patients died. <The last moment with dignity> remaining patients and staff to high Futaba were rescued the next day on the morning of July 13. However, we departed for the destination mild down in a nursing home is about 11 kilometers from the nuclear power plant of the point, for a few days, and the hospital will not be able to confirm the whereabouts, confusion continued. According to the hospital, patients who had a total of four people died during the evacuation. It was our critically ill patients, Shigetomi director is "not welcome provoking fate with dignity, was not sorry," and regret. Some people that are more than one changing hospital died away. Looking back on the evacuation Shigetomi director says.
